

Games

I have written a handful of games for [game jams](#), all of which are playable in the browser.

Composure

Compose your thoughts and functions. You'll be alright.

For the best experience, I recommended that you play the downloadable version. Mobile platforms are unfortunately not supported.

Semantic Construct

A puzzle game about building a world with words.

[Play](#) / [Source Code](#)

Evaluation Order

A game about lists, functions and enlightenment.

[Play](#) / [Source Code](#)

Kutyagumi

A game about cells and taking over the world!
